

23 April, 2015

Subject: Material Compliance to EU Directive 2011/65/EU, Restriction of Hazardous Substances (RoHS).

To whom it may concern:

This is to confirm compliance of AMPCO METAL S.A. supplied alloys with the above mentioned EU Directive. With the exception of some leaded tin bronzes, particularly CDA 932, all of our alloys contain less than the 4 % by weight lead exempted under Annex, article 4(1), item 6. The other elements specified by the Directive are not applicable to our alloys.
